

# **A Camino Bike Experience, by Trent Bolling, U.S.A.**

My wife and I completed the entire Camino via eBike. We started October 1 at Loyola and finished October 11 in Manresa. Yes, ten days is too short for a full spiritual journey with lots of time to reflect. That said, though we did have a full day in Loyola to start and learn and reflect about Ignatius.

We were able to stop in all 27 stages, and even got a stamp in 26 of them. For one we just had bad timing and could not find anyone with the passport stamp.
