

New Signaling in Catalonia

With the help of the public administration, towns and cities in the Ignatian Way in Catalonia have marked the Ignatian Way with this beautiful symbol of the sun rising on the horizon of the pilgrim. Also called the Camino del Sol, since the route links the northwestern tip of the peninsula to the southeast coast of the Mediterranean, the Ignatian Way moves toward the enlightenment that Ignatius of Loyola found at the end of his pilgrimage in Manresa 1522.
